The Constitution

Commonwealth of Australia
Constitution (1901).

The Parliament

The inherent design flaw within S51 allows Parliament discretion to make laws/ treaty and many other things.

(Deliberate subterfuge to maintain control/ the inherent design flaw within).

The COMPANY

AUSTRALIA Corp.

(Jesuit control/ “The COMPANY”).

The Citizen

PERSONS= Legal Personality/ CITIZEN (OF ROME),with Numerical Legal Entity Identifier (LEI).

The Number of the beast.

Workers/ contractors/ mercenary service, bound by the terms of the contract/
Bondsmen.

The Contract

Drivers Licence, Passport, Social Security,
medicare (ALL CAPS NAME).

(The voluntary Contract = Performance/
Consent).

Conditions

All legal PERSONS operating within “The COMPANY” (AUSTRALIA) are Bound by the terms and conditions imposed upon them in (voluntary) servitude.

Alteration of Contract

The COMPANY may alter or amend those terms and conditions periodically where continued consent is presumed by acquiescence or performance.

Personal Representation Accepted

That is to say, if you say nothing (silence) or should you mark the Polls/ Head count (vote, object or protest) thereby clearly accepting the attendant Personal representation/ liability of that Undertaking.

Impaired Performance

Where objection, protest or belligerence dishonors or impairs (YOUR) performance to the consensual undertaking (the contract) there is sufficient legal evidence to constrain non-performance obligations, by WHAT EVER FORCE SEEMS REASONABLE, PROPORTIONATE and NECESSARY.

Protest

All protest, discontent, belligerence, agitation, threat, violence causing damage, loss or injury (in it's legal sense) is contained within the Contract THE BELL/ DOME).

Justification for the use of Force

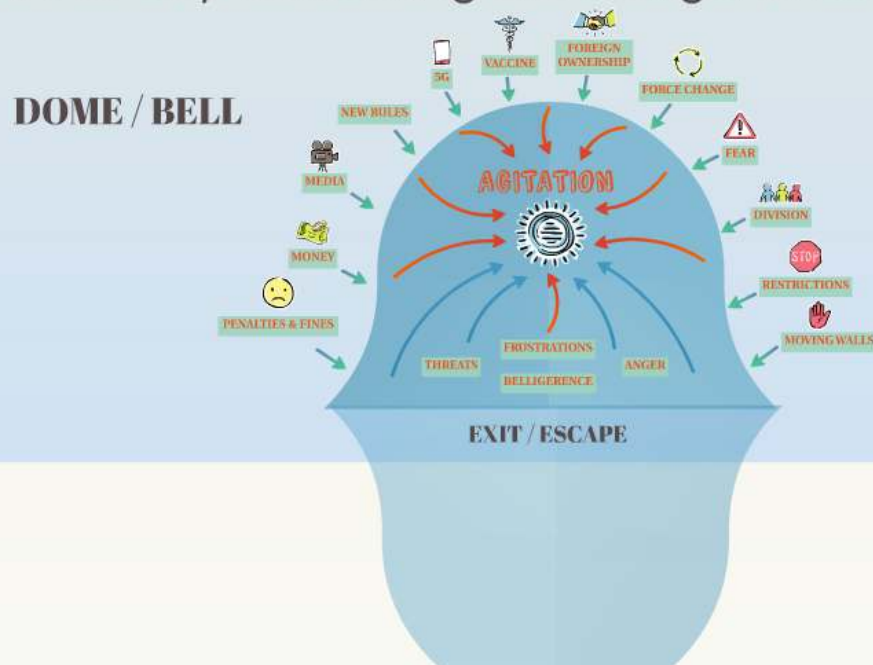

Should the COMPANY amend, alter or change the terms of that contract(Legislation amendments) and your consent be provided (in it's legal sense) and people protest, agitate, threaten (Rebel) against the new rules, force may be Justifiably used to quell any insurrection.

Visualization- the Bell/ Pressure Dome

In a visualization we could imagine a bell or dome where the top of the bell is the Legislated Rules of the COMPANY we have consensually agreed to abide by our acquiescence or performance (accepting the benefit of CITIZENSHIP).

The shape of the Bell/ Pressure Dome

The tapered sides of the bell/ dome are the penalties imposed on infraction of the agreed rules, thereby containing the belligerence under its own pressure.

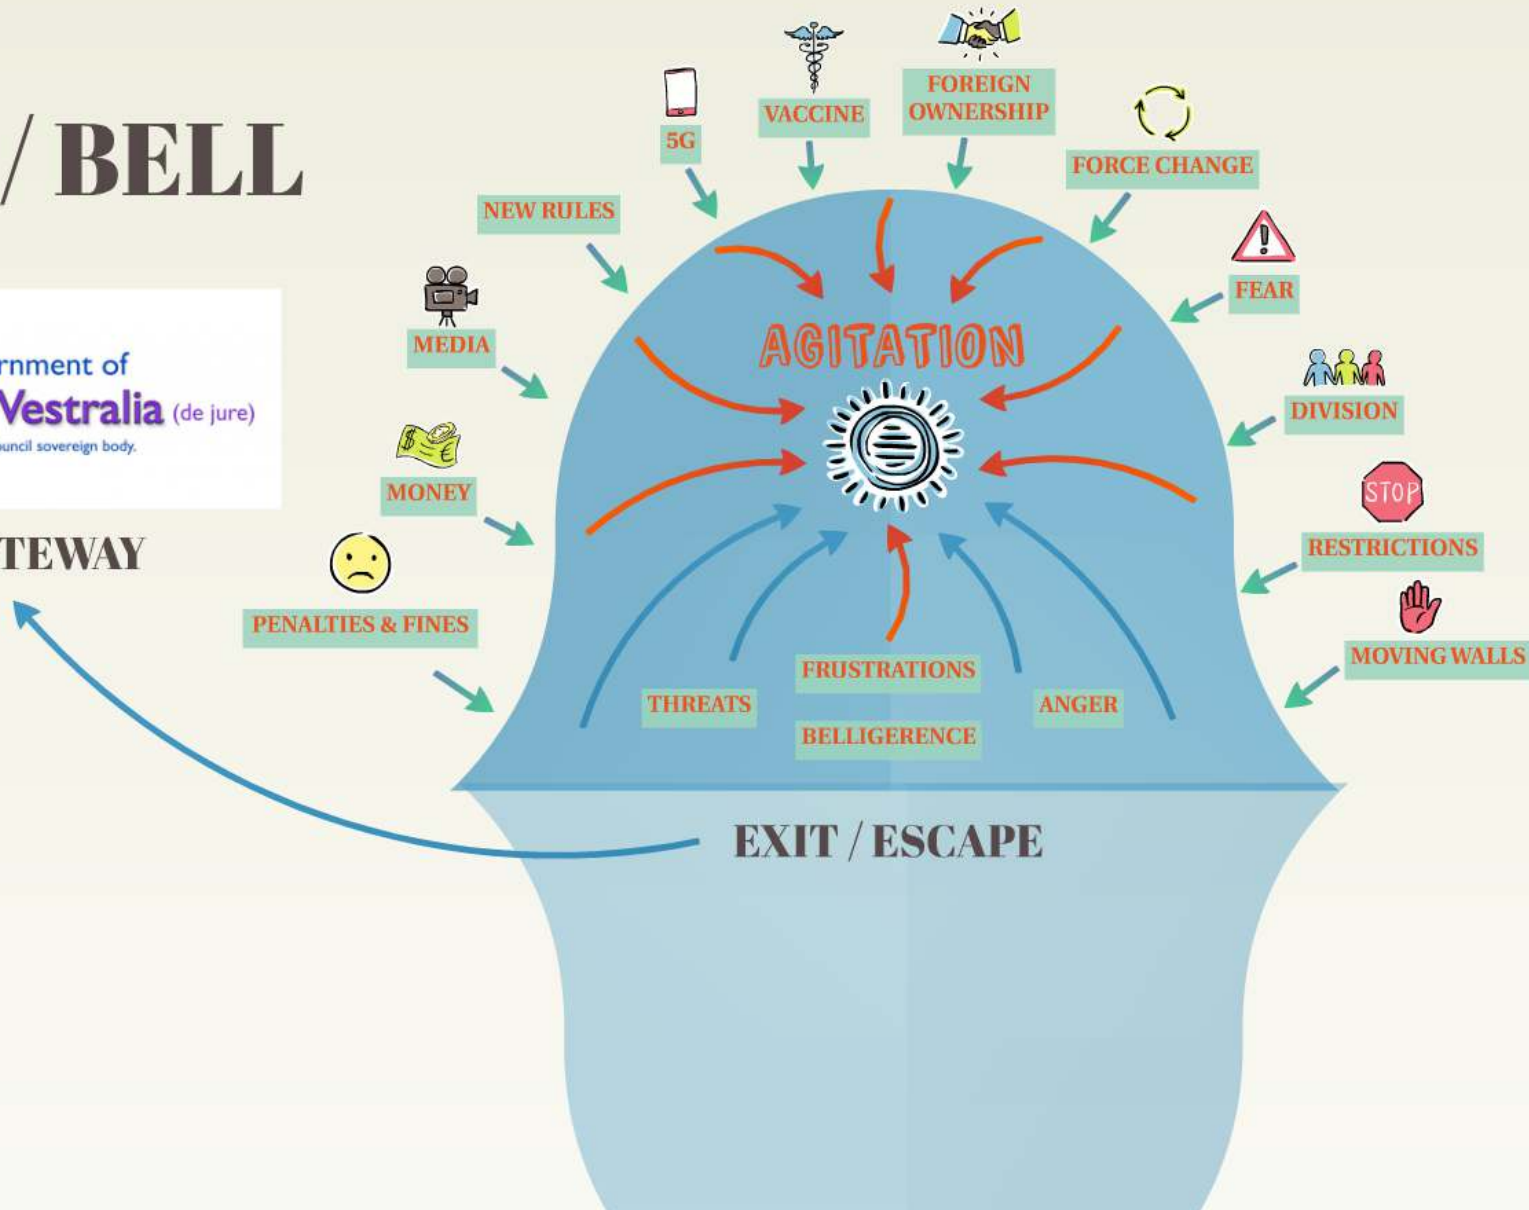

utterly dependent upon the w
the COMPANY.

The Pressure Increases

Should the new rules imposed cause anxiety or trouble the PERSONAS legally employed in occupation, and social unrest will press against the steadily tightening walls of the bell/ dome and without relief something must give as the pressure naturally increases....

Reality Exposed

This is the constructive reality we observe today, mandated vaccinations, loss of rights, applied force against insurrection (police state/ martial law), frustrated protest or objection, ever changing political rules, financial limitation, poverty and depression all contained inside the bell where relief is completely and utterly dependent upon the whim of the COMPANY.

Our Naivety

If you would be so naive to think that the mob has the necessary might or organization to overwhelm or remove the COMPANY you would be grievously mistaken.

Know Who You Are

To remove yourself from the occupation (the COMPANY) you may have mistakenly undertaken allegiance, pledging obedience to the foreign occupier you must know who you are, and behave with dignity and restraint.

Find Godliness and Peace

Find god or/ and the mystery/ mastery of your self.

The Remedy

There you have your peaceful remedy.

Direct your Allegiance and Obedience (Informed Consent)

It is simply a matter of correcting the record, removing consent and placing your allegiance and obedience to Proper Governance, as property and persons must not be left un-cared for, abandoned or forgot.

The Lunatic Asylum

Should you not know how to do that(amend the record) you are immediately and convincingly providing evidence of incompetence and adjudged a lunatic for the antics, threats and agitation as one who accepts the contract then shouts against the decision they willingly made, while continuing to take protection and benefit from it.

The Horrifying Legal Reality

This is the legal reality and presumption of consent so don't shoot the messenger...if you believe yourself already free you need not heed our advice nor take up our invitation.

You MUST attempt your own Escape

Should you wish to escape the occupiers Jurisdictional reach you only need, come home to your rightful state.

De Jure body Politic- The People in Power

New Westralia provides the De jure body politic for your protection, safety and equitable contribution (one share – one vote).

Proper Governance

Proper Care

Proper Peace

We are Waiting for You

When you are ready we are waiting with our arms wide to receive you, and care for you, as one of our own (in its Ecclesiastical sense), no one will be denied entry where they come in peace.

The Leap of Faith

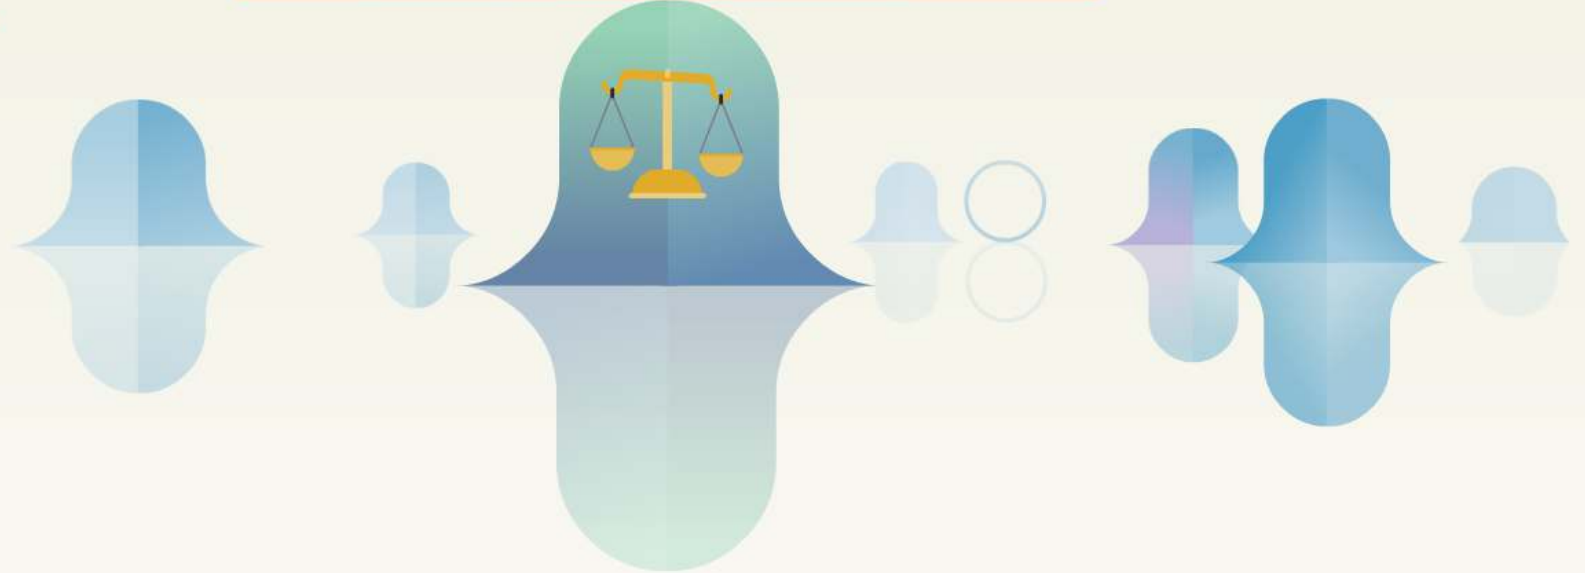

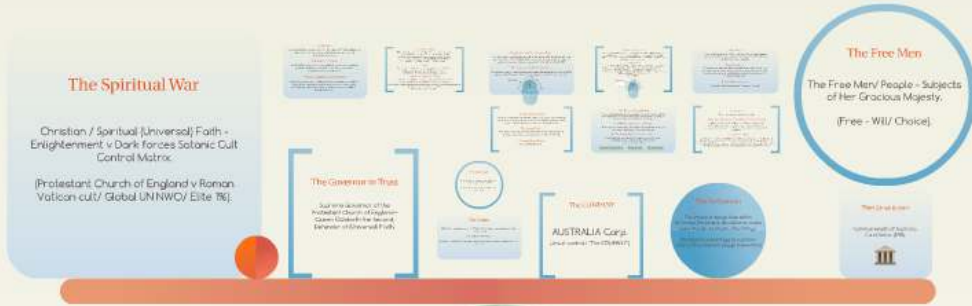

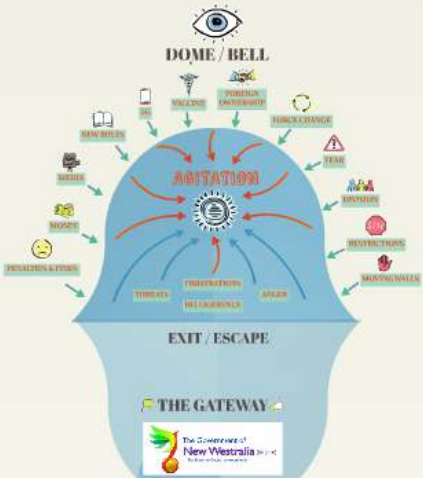

The leap of faith may rest on the evidence. We have and do so provide, full disclosure, co operation and surety in trust.

Welcome Come Home

This is the way home!
